There are many individuals and families in all areas of life; professionals, businessman, industrialists, agriculturists, property investors, etc. who own real estate in shape of residential, industrial, agricultural, amenity and commercial land either through inheritance or purchase. Because of other commitments, legal issues and various constrains they are unable to develop viable Projects for sale to the general public on ownership basis and are seeking partners who can provide experienced management and financial resources.

Experience is the key and in simple words, we say:

**"IF YOU HAVE THE LAND - WE HAVE THE EXPERIENCE  
TO BUILD A PROJECT AND SHARE THE REVENUE WITH YOU"**

We will engineer a joint venture transaction for you as a landowner to achieve a better price for the land as well as share of the development profits. In this era of technology, we are not far, contact us, we will depute our team of experienced personnel s to visit the location. Our team will survey the surrounding area, obtain building bye-laws, prepare conceptual plan, carryout a market survey, calculate the selling price, work out the cost of development and construction, incorporate the cost of your land and finally arrive at the bottom line where you will be able to judge the share of your profit.

So If you, your relatives, friends or any other acquaintances posses residential or commercial land anywhere; we will explore the viability of a Joint Venture Development and Collaboration Strategic Alliance on fair terms.

Please contact us if you have the land and wish to capitalize on SASI REAL ESTATE PHILOSOPHY of Saving and Sharing Initiatives. We will empower you with unique methods of wealth creation and social cause through joint ventures.
